

Jean Biddick Workshop Faux Log Cabin

The supply list asks you to bring 8 ½” squares of light and dark fabric.

This is **NOT** an approximate size. The squares need to actually be cut 8 ½”.

You need 24 dark squares and 24 light squares.

You also need 48 rectangles cut 8” by 2”.

The rectangles are all dark fabrics. They can be from the same or from different dark fabrics than the squares.

I look forward to our half-day together.
