

# Piecing Mosaic Tile Designs

## Supplies:

- Freezer Paper
- Masking tape
- Pencil and eraser
- Colored pencils (3 or 4 different colors)
- Rotary mat and cutter and basic ruler
- Paper scissors
- Small rotary ruler with ¼ inch marked clearly from an outside edge (Bias Square, Omni 6x1, Omni 6 x12, etc.)
- Thread scissors
- Pins, IBC silk pins preferred (available at workshop if you can't find them locally)
- Extra machine needles
- Thread
- Removable tape (like regular Scotch Tape, but the package says 'removable')

## Projects:

There will be several projects for you to choose from. None of them are large or we wouldn't get very far during a one day class. You may choose any one of the projects to work on during the workshop. If you prefer you may spend the day developing your own mosaic design. If this is your choice you will not need sewing machine or fabric, but will need a large piece of paper (at least 36 inches wide).

## Fabrics:

### Background

For the largest design you will need ½ yard of background fabric.

Small amounts of fabrics that contrast well with the background

None of these needs to be larger than an 8 inch square

The more fabrics you have the more choices you will have as you develop your design.

If you have questions about this supply list please feel free to contact me.
